Certificate
MAR 05 2009
of Correction

**Attention: Decision and Certificate of Correction
Branch of the Patent Issue Division**

Dear Sir:

This is in response to the letter mailed December 1, 2008 from the U.S. Patent and Trademark Office (the "Office") denying Applicants' request for a Certificate of Correction that was submitted on November 4, 2008 in connection with the above-identified patent. A copy of the USPTO's letter is enclosed. Applicants hereby enclose evidence that the Office's decision in denying the request was not warranted.

Applicants requested in the Certification of Correction that the correct priority application data be listed in the issued patent. The Office denied Applicants' request on the ground that there was no reference to the relevant priority applications

MAR - 5 2009

the patent specification application, Oath, ADS or any amendments. This is simply incorrect.

Enclosed is a copy of the Patent Application Data Sheet (ADS) which was submitted with the patent application on April 8, 2004. The filing of the ADS is also indicated in the PAIR database of the Office. Page 6 of the ADS clearly indicates all the priority data as referred to in the Request for Correction dated November 4, 2008 (copy enclosed). As noted in 37 CFR §1.78 (a)(2)(iii), the reference to priority applications as required by 35 USC § 120 can be properly included in an ADS filed in the later application. Therefore, the subject patent has properly claimed priority to the earlier applications listed in the ADS. Accordingly, the Office's denial to enter the requested priority data in the issued patent is undoubtedly erroneous.

In view of the above, Applicants respectfully request reconsideration of the Request for Correction filed on November 4, 2008.

Applicant does not believe there are any fees associated with this request. However, should any additional fee be required, the Commissioner is hereby authorized to charge payment or credit any overpayment to Deposit Account No. 19-0962.

Respectfully submitted,

2/26/2009

:ACTIVATING CD4+T CELLS

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above identified patent.

Related Application Data with respect to the first sentence of the specification" and/or any amendments thereto, is used for printing data claimed under 35 USC 120. Since the first sentence of the specification does not refer to the additional information as reflected on applicants request nor does the Oath/ADS or any amendment refer to the application data as requested, correction is not warranted under Rule 1.322 or 1.323. See MPEP §1.78(a)(3).

In view of the forgoing applicants' request in this matter is hereby denied. Any telephone inquiry concerning this communication should be directed to Ms. A. Green (703) 308-9393 ext. 123.

**Attention: Decision and Certificate of Correction
Branch of the Patent Issue Division**

Dear Sir:

As assignee of record of the entire interests of the above identified U.S. Patent as evidenced by an Assignment recorded in the U.S. Patent and Trademark Office on April 26, 1999 at reel 9915, frame 0842, it is noted that an error appears in this patent of a minor nature or character, as more fully described below. The error occurred in good faith, and correction thereof does not involve such changes in the patent as would constitute new matter or would require re-examination. Therefore, a Certificate of Correction is requested.

Attached hereto in duplicate is Form PTO-1050 with at least one copy being suitable for printing. On the front page of the patent, field (60) should read as follows:

Related U.S. Application Data

- (60) Continuation of application No. 09/715,231, filed on Nov. 17, 2000 (now abandoned), which is a divisional of application No. 09/194,285, filed on April 12, 1999 (now pat. No. 6,355,479), which is a national phase application of PCT/US97/08697, filed on May 22, 1997.
- (60) Provisional application No. 60/018,175, filed on May 23, 1996.

Kindly send the Certificate to:
